Infrastructure Credit Guarantee Company Limited

Infrastructure Credit Guarantee Company Limited (“InfraCredit” or the “Guarantor”) was incorporated in Nigeria on the 20th of October 2016 (RC. No. 1368639) as a private limited company trading under the business name and style of “InfraCredit” (registered no. 2455187) with the Corporate Affairs Commission. The registered office is at 1 Adeyemo Alakija Street, Victoria Island, Lagos, Nigeria.

InfraCredit is a specialized credit enhancement facility established to support long term local currency infrastructure financing by providing guarantees to enhance the credit quality of local currency debt instruments issued to finance eligible infrastructure related assets in Nigeria. Its guarantees act as a catalyst to attract the investment interest from pension funds, insurance firms and other long-term investors, thereby deepening the Nigerian debt capital markets. InfraCredit was established by the Nigeria Sovereign Investment Authority (“NSIA”), an independent agency responsible for the management of Nigeria’s sovereign wealth fund, in collaboration with GuarantCo, a supranational funded by five G12 countries: the UK (DFID), Switzerland (SECO), Sweden (SIDA), the Netherlands (DGIS through FMO) and Australia (DFAT).

InfraCredit’s authorised share capital is N50,000,000,000 divided into 50,000,000,000 ordinary shares of N1.00 each. Its issued share capital is 21,529,000,002 ordinary shares of N1.00 each. An overview of InfraCredit’s capital structure, credit ratings and board of directors is provided below:

Capital Providers

In December 2016, InfraCredit signed a Callable Capital Funding Facility Agreement with GuarantCo (the “Callable Capital”) under the terms of which GuarantCo commits to support any guarantees issued by InfraCredit, up to a maximum value of US\$ 50 Million, of which US\$25 Million is being utilised by InfraCredit. GuarantCo is owned by the UK government and four G12 governments. The Callable Capital is an unfunded “second loss” component of InfraCredit’s capital structure and acts as a liquid credit backstop to InfraCredit’s paid in equity (the “Core Capital”). The Core Capital is a highly liquid funded component of the paid up share capital and acts as a “first loss” protection to the beneficiaries of credit guarantees. NSIA has subscribed and fully paid US\$25 Million of the Core Capital and is the initial shareholder of InfraCredit. In 2018, AFC, the leading infrastructure development finance institution in Africa, invested US\$25 million equity in InfraCredit and became a shareholder in the company alongside the NSIA. InfraCredit plans to increase its Total Capital to up to US\$200 Million (Naira Equivalent) to support its guarantee issuing capacity. In furtherance of this objective, in November 2018, KfW Development Bank (“KfW”) invested US\$35 Million in subordinated capital investment in InfraCredit. In December 2019, InfraCredit announced the successful closing of an additional US\$25 Million subordinated capital investment by KfW. The subordinated unsecured long-term capital by KfW ranks as qualifying capital for financial leverage purposes.
